Mission

Our mission is to extend lifelong learning to Georgia citizens through unbiased, research-based education in agriculture, the environment, communities, youth and families.

Overview

UGA Cooperative Extension was founded in 1914 to take research-based agricultural information to the people of Georgia. County agents and specialists throughout the state share information on issues like water quality, profitability in agribusiness, family wellness and life skills.

County agents provide soil and water test kits and instruction, advice on safe pesticide use, provide publications and computer programs and teach consumers skills to improve Georgians quality of life. They are the local experts in food safety, proper eating habits, child safety and parenting.

UGA Cooperative Extension coordinates 4-H, Georgia's largest youth program. Each year, almost 200,000 young Georgians participate in community projects, summer camps and conferences on today's issues while having fun and learning to work together. The leadership skills and responsible values they learn in 4-H last a lifetime.

UGA Cooperative Extension reaches more than 2 million Georgians through its education programs annually. Millions more rely on our publications, educational news articles and public television programming for advice and information.
